¹For those undergraduate students who entered the University between Fall 1974 through Spring 1991, the grade of F was **not used** in the computation of the Grade Point Average (GPA) until Summer 1999. For those undergraduates who entered the University beginning Summer 1991, the grade of F **was used** in the computation of the GPA. Re-admitted undergraduate students were graded under the F-policy in effect at the time of their last enrollment until Summer 1999. Until Summer 1999, the I, X, IX grades were not required to be removed and were not used in the computation of the GPA.

²The School of Dentistry grades of D and F are unacceptable but may be remediated upon approval (See Dental Bulletin for further information); the grades of D and F are always included in the computation of the Grade Point Average (GPA). As of the Fall 2003 term, the grade of D was eliminated from the School of Dentistry grading system making it no longer a valid grade.

³Non-law courses taken during the law degree program may not be counted toward grade points for the law degree program.

⁴Grades AB, BC and CD effective Fall 1979 through Summer 2017; WF and +/- grading effective Fall 2017.
